**ISSA**  
Information Systems Security Association

Expand Your Peer Network,  
Enhance Your Professional Stature,  
Achieve Your Personal Career Goals

## Become a Member Today!

The community of choice for global cyber professionals dedicated to advancing individual growth, managing cyber risk, and protecting critical information and infrastructure.

- **The Only Independent Community of Cybersecurity Leaders**

ISSA is about trust, relationships, and upholding the highest code of ethics for leaders of all organizational levels.

- **Members Advance Their Careers Faster and Further**

The most effective way to stay "in the loop" in today's fast changing threat landscape and throughout your career lifecycle (you can also earn CPE credits for various certifications by attending ISSA-sponsored meetings).

- **Because Being a Leader is a Choice**

ISSA members "go beyond the certification" and are proud to protect the world's vital information.

### Local Chapters

Unprecedented local networking and educational opportunities through our network of chapters throughout the world, where your fellow members can become your strongest allies when support is needed to get the job done.

### Future Career Opportunities

Networking and learning opportunities will provide means to identify potential career opportunities and elevate your profile to people who have influence over hiring decisions in their organizations.

### Exclusive Savings

On top of ISSA event rates that are exclusive to ISSA members, we also offer members additional discounts to a wide spectrum of security resources and events.

### Earn CPE/CPU Credits

You can earn CPEs for various certifications by attending meetings and other events sponsored by the ISSA.

### Learning and Development

ISSA Chapter meetings, regional events, and web conferences, serve as vital educational and professional resources, offering in-depth and timely information about the information security industry.

### ISSA Journal

Every month, leading thinkers from all over the world share their ideas and insights on key cyber security issues in the ISSA Journal.

### Access to a Global Network

Through our exclusive online community, you'll be able to connect with other students and professionals in the cyber security space.

A message to those affected by layoffs:

To those who have recently been laid off, **know that this is not the end of your journey.** It may feel like a setback, but it is also an opportunity for growth and new beginnings. Remember that you are not defined by your job or profession, but by your character and determination.

It is natural to feel overwhelmed and unsure of what the future holds, but **keep in mind that this is just a temporary setback.** Use this time to reflect on your goals and aspirations, and figure out what you really want to do with your life. This is an opportunity to explore new careers, gain new skills, and pursue your passions.

Remember that failure is not the opposite of success, it's just a part of it. **You will come out of this stronger and more resilient.** Take this time to focus on yourself and your well-being, and don't be afraid to reach out to family and friends for support.

You have the ability to create the life you want, don't let this setback hold you back. **Be positive and stay determined,** and you will find a new path that's right for you.

## A message to my Veteran brothers and sisters:

To my fellow veterans, **know that you are not alone** in your transition to civilian life. It can be a challenging process, but there are many resources and people available to help. Reach out to organizations such as the VA, Veteran Affiliated Non-Profits, local veterans' groups, and even community centers for assistance. Remember that it is okay to ask for help and support as you navigate this new chapter of your life.

It's natural to feel a sense of uncertainty and loss of purpose. You may be wondering what your next step is, and how to define your new identity. It's important to remember that your service has given you a unique set of skills, values, and experiences that will serve you well in your next chapter.

Take the time to reflect on your accomplishments, challenges, and what you've learned from your service. Think about what you're passionate about, what you're good at and what you want to do next. You may want to continue to serve in a different way or pursue new passions that you've discovered during your service.

Know that finding your new purpose will take time, be patient with yourself and don't be afraid to seek help. Keep your head high, trust yourself, and don't be afraid to explore new opportunities.

**You are not alone in this journey.** There are many people that want to help, such as myself, and mentoring organizations that want to take that extra time to guide you through this tough challenge. But know that you have already shown incredible strength and resilience while serving our country, and you will prevail. Together, we can support each other and make this transition a successful one.
